

We are interested in identifying carers who may be unknown to this practice or other statutory agencies.

Sometimes these 'hidden' carers are looking after a family member or helping a friend or neighbour with day to day tasks and may not see themselves as a carer.

We feel that caring for someone is an important and valuable role in the community, which is often a twenty-four hour job that can be very demanding and isolating for the carer. We further believe carers should receive appropriate support by way of access to accurate information on a range of topics, such as entitlement to benefits and respite care and not least, a listening ear when things get too much.

If you are a carer, this is an opportunity to let the practice know, so that we can update our records. Please complete our questionnaire which can be downloaded via the link below and return to the practice.
